THE WAIL OF THE MOTHER.

Our child, in the beautiful robes of the dead, Lay calm on his last white pillow, and the grief that he left us broke wild over

As o'er the lost wreck breaks the billow It seemed that our hearts in the desolate grave Should be laid down to perish beside him; We felt that our pleadings no longer could save, Nor our hands from corruption divide him.

They laid him away in the cheerless hall Where the cold of the winter was creeping, Where the curtain flapped on the bare white wall

So unlike the warm couch of his sleeping-And the poor mother spoke, as they hid his dear form,

That one moment most bitter and trying, "I have kept him so long in my own boson warm,

And now in the cold he is lying."

They covered the coffin, and dark fell the cloud As we stood the deep sleeper surrounding, And we saw the thick sky with the heavy rain bowed,

And we heard the loud storm-wind surrounding; Then the grief of the mother broke forth with

a wail -. They ked breaky militarote to, we seem

pale, It will rain on his grave to-morrow."

Oh! desolate mother! oh! bitterest grief That troubles the deep heart of woman! It is well that God's hand holds the coming

That our pains, like our pleasures, are hu-

It is well that we know that the cold beats in

On the spirit unchanged and immortal, And that falls the broad sunahine, as well the rain,

On the grave, which is beaven's own portal.

Selections.

THE REMEDIES OF NATURE.

Is the whole phenomena of malady, nothing is more striking than the accommo-dation of the mind to the condition of suffering. I remember once—I was then in all the strength and confidence of youth and health-discussing this point with a friend, a physician of skill and eminence, cution. There is a kitchen in which the and stock bargains; for the harmonies of now no more, and was greatly struck by a young ladies cook their dinners, and a a concert and the discords of a conventheory which was new, at least to me. THE QUAKER CAPTAIN.

Ar the time of the Revolutionary War, when it was very dangerous for a merchant ship to venture to see, a Quaker, who lived in Philadelphia, had a ship, which was loaded with a very valuable cargo, and to whom he could depend to manage the ship, our friend set sail for Boston. After being at sea six or eight hours, the mate espied an English privateer in chase, and fast coming up with them. He informed his Quaker com-

What will thee do?" asked our friend. "I shall fight the rescal," said the mate.

pearance again. Taking good aim at the British captain, he fired, "dropped" him, and again retreated. Soon after, finding that the victory was turning on the side of the Yankee, he came on deck, and stepping up to his mate, said:

"Has thee seen anything of that little noisy fellow lately that was making such a fuss, after I went below?" "No," says the mate, "he has been

pretty still since you shot him!" Our friend justified himself in quieting the noisy fellow, and arrived safely with his ship and eargo, but thought the mate did wrong to fight.

BITTERNESS UNPARALLELED.

GREAT TORNADO.

The damage done in the city by blowing down and unroofing houses, is immense. The loss will probably reach five hundred thon-The loss will probably reach five hundred thousand dollars. A large number of persons were injured. As far as ascertained but six persons were killed. The roof of the new Connerval office building was blown off, portions being carried a distance of a square, and part of the wall fell through Johnson's saloon adjoining, injuring several persons on the ground floor.

The steeple of St. Joseph's Catholic Church was blown off, and fell through the roof. Most all of the public buildings, school houses and all of the public buildings, school houses and Cruz, where were Alatrate and Carvajal on the churches, besides a large number of dwellings, were unroofed and otherwise damaged. The telegraph lines in every direction were prostrated, and but little is known of the damage in the country, but as far as ascertained the damage has been as severe as in the city. The was on the way to San Luis, to take the comcovered with a forest of fallen timber between here and Carthage. The villages and counties along the Little Miama Raitrond, between here and Loveland, suffered terribly. The Railroad Depot at Loveland, and other buildings, were demolished. The Catholic Seminary on the hill beyond the Brighton House was unroofed and otherwise badly damaged. The Railroad shep at Lawrenceburg was entirely demolished. The storm visited Cummingsville with great fary. The Catholic Orphun Asylum was completely uncoofed, and the road between Cummingsville and the Brighton House is covered. mingsville and the Brighton House is covered with trees forn up by the roots. Nurseries and gardens along the road suffered severely. The storm along the river raged with fearful violence. The steamers at the levee, however, were properly moored and weathered the gale;
The steamer Virgin Home, when two miles
above the city, capsized and her cabin parted
from her hull and floated down the river in

fragments. Only three passengers were on board, who were saved, two of the crew were lost. The boat was valued at \$6,000.

At Spring Grove Cemetery the destruction to the trees, monuments and shrubberies was sovere. Along the Community, Wilmington and Zancsville Railroad trees were blown down by thousands between Morrowton and Circleville, and several houses destroyed. At Mount Auburn there was a great destruction of tress and shrubbery, and all along Clifton Avenue trees were uprooted. The train on the Covington and Lexington Railroad was blown off the track, and the locomotive and baggage car The l completely demolished. The passengers escaped uninjured. A heavy rain set in early in the rangement to shumerate all the damage

done. Scarcely a house in the city escaped uninjured. No traces were seen of the storm on the Ohio and Mississippi R. R. west of tucky, and explored for a considerable distance. Lawrenceburg. From that point east signs are seen on every hand. Northwest of the city it appears to have extended about seven miles; on the Marietta and Cincinnati Railroad and attractiveness. It goes by the name of who find it a very agreeable employment. Wance of the man.

FROM MEXICO.

IMPORTANT BATTLE-VICTORY OF THE LIBERALS-GREAT SLAUGHTER—CAPTURE OF GEN. LA YLOA, AND MORE THAN 1,000 PRISONERS.

By the brig Nahum Stetson, Capt. Trenis, which arrived at this port yesterday, we have advices from Tampico to the 6th inst. The news is highly important. On the 23d ult. was fought, at the Hancho del Chino, State of San Luis Potosi, a general engagement bearmy, commanded by Gen. Romulo de la Vega, and the Liberal forces, under Gen. Uraga, in which the former were suitedly routed, and Gen. Vega and a large portion of his army tops of our own people, and in complexion under the control of his army tops of their nests, and was controlled to send on the stature, they were generally a little below the stature, they were generally a little below the stature, they were generally a little below the stature. Also were portional controlled to the stature of tween the Second Corps of the Reactionary picocs of artillery, thirty ordnance waggons, a showed that there are among the Japanese, large quantity of ammunition, provisions, stores, and baggage of every description. In fact, to use the words of Gen. Uraga's report.

Szynnyren-Year Locust —Mr. G. H. Wobb "the Second Corps of the Reactionary army no longer exists." To say nothing of the leases on the lattle-field, during a well contested engagement of four hours and a half, more than a thousand prisoners full into the hands of the
